Work

AirTies Wireless Networks

2020-09-01 –

Senior Software Engineer

<https://airties.com/>

Trying to make your wifi-network better, because it also deserves some love ;)

Highlights

- Working in java-oriented 'you build it you run it you own it'-team

- Heavily working with quite some AWS services
- Trying to be as language-agnostic as possible, just do it :)
- Do some research on new technologies and implement them if needed

A.S. Adventure

2016-01-01 – 2020-08-31

Front-End Team Lead (& DevOps specialist)

<https://www.asadventure.com>

Working with a internal and external team to expand the web platform (Adobe Experience Manager with React/AngularJS components) for all the websites within the A.S. Adventure group.

Highlights

- Making sure that the website is performing as good/fast as possible
- Always looking for new enhancements within our ecosystem
- Thinking about getting the most out of our Adobe ecosystem
- Making sure that everything stays IaC from a DevOps standpoint
- Trying to be (a part of) the glue between the front-end and back-end team
- Do some research on new technologies and implement them if needed

Clear Digital

2013-03-18 – 2015-12-31

Full stack developer

<http://cleardigital.be>

Highlights

- Web development in Symfony2 (php) with a focus on integrated solutions
- Native/not-so-native (Cordova) mobile development
- Internal standardisation guy

Analyz-IT

2009-08-01 – 2013-03-16

Junior/Medior web developer

<https://analyz-it.be>

Web development in ASP.NET (C#) with a focus on commercial websites and intranet applications

Highlights

- Internal sys administrator

Högskolan Halmstad, Sweden

2009-03-01 – 2009-06-01

Intern

<https://hh.se/>

Analysing and developing a webbased 'risk management'-tool in ASP.NET

Education

Katholieke Hogeschool Kempen, Geel

2006-09-01 – 2009-06-30

 Applied Information Technologies
Bachelor

Sint Franciscus College, Heusden-Zolder

2000-09-01 – 2006-06-30

 Accountancy-Informatics
